SMALL BUSINESS · FEDERAL PRIME CONTRACTOR · SAM REGISTRATION IN PROGRESS

Federal facilities, maintenance, and supply work, managed by one accountable prime.

Summit Automations Group LLC is an Oklahoma small business that bids, manages, and delivers facilities support, equipment maintenance, and supply requirements for federal buyers. We hold the contract, coordinate vetted licensed partners, and own the outcome from award to final invoice.

A small business built to make contract delivery simple for the government.

Summit Automations Group LLC is a limited liability company based in Yukon, Oklahoma, in the Oklahoma City metro. We compete as a small business for federal supply and service requirements, with a focus on simplified acquisitions where speed, clear communication, and dependable follow-through matter most.

Our role is the prime contractor. We bid in our own name, hold the relationship with the contracting officer, and manage the qualified subcontractors and suppliers who perform specialized work, within the limitations on subcontracting that apply to each award. You get one point of contact for scheduling, quality, reporting, and invoicing.

The company is veteran-owned and minority-owned by self-declaration. It does not hold SBA certifications and does not pursue set-asides that require them.

What we deliver

Facilities support

Integrated building and base support: custodial, grounds, and general facility operations under one contract.

NAICS 561210 · 561720 · 561730 · 561790

Equipment repair & maintenance

Inspection, preventive maintenance, and repair of commercial, industrial, and precision equipment.

NAICS 811310 · 811210

Equipment rental

Commercial and industrial machinery and equipment rental, delivered and picked up on schedule.

NAICS 532490

Waste, linen & security services

Solid waste collection, linen supply, and security systems service through licensed providers.

NAICS 562111 · 812331 · 561621

Subsistence & industrial supply

General-line grocery, industrial machinery and equipment, and MRO supplies sourced from qualified distributors.

NAICS 424410 · 423830 · 423840

Contract administration

Subcontractor coordination, schedule and quality oversight, compliance tracking, invoicing in the agency's required system, and closeout.

Included on every award

Why contracting officers call us

1 One accountable prime
One contract, one point of contact, one invoice. We manage every partner so your team does not have to.

2 Vetted, licensed partners
Performing partners are checked for SAM status, exclusions, licensing, and insurance before we bid, and held to written subcontract terms.

3 Systems-driven management
Our own tracking system logs every requirement, deadline, partner payment, and deliverable, so status reports are fast and accurate.

4 Responsive small business
Owner-led and reachable. Quotes, questions, and service issues get a direct answer, usually within one business day.

5 Compliance first
We follow the limitations on subcontracting, Service Contract Act wage determinations, and the size standard on each solicitation, and we bid only work we can deliver.

6 Central Oklahoma base
Located in the Oklahoma City metro, near federal installations and facilities across the region.

Past performance, stated plainly

Federal contracts

Summit Automations Group LLC is a new firm and has not yet completed a federal contract. Completed awards will be listed here with contract numbers and agency points of contact as they close.

Our commitment: we bid only work we can deliver, we communicate early when something changes, and we treat our first federal awards as the references that will define us.

Relevant owner experience

Management and operations. Supervising people, schedules, and day-to-day operations to defined standards.

Oilfield operations. Field work in a safety-critical industrial setting with equipment, procedures, and site requirements.

Automotive sales and finance. Pricing, paperwork accuracy, compliance, and customer service in a regulated transaction business.

Customer reactivation and automation. Building automated systems for small service businesses to track customers, follow-ups, and results.
